Chemical Biology: Methods, Progress, Perspectives

International Conference
February 11-13th 2013, Vienna, Austria

International Conference "Chemical Biology: Methods, Progress, Perspectives" to be held in Vienna on February 11-13th, 2013 will provide leading academy and industry scientists a platform to communicate recent advances in Chemical Biology and an opportunity to define new frontiers and establish multilateral collaborations. Approximately 300-350 participants are expected to attend this exciting scientific forum including almost 40 lectures delivered by worldwide known invited speakers and young, talented speakers selected from submitted abstracts.

Vienna is located in the heart of Europe on the banks of the Danube River, and considered one of the most important economic, cultural and touristic large cities of central Europe. Apart from providing top science, the Conference will capture the spirit of the city thanks to the central location of the venue offering a multitude of cultural events just minutes away.

Invited speakers:

Bajorath J (Germany)	Marcaurette L A (USA)
Bradley M (UK)	Marechal E (France)
Crews C M (USA)	Marx A (Germany)
Dell A (UK)	Tavazzoli A (UK)
Deprez B (France)	Rognan D (France)
Famulok M (Germany)	Specht A (France)
Hoffmann C (Germany)	Urano Y (Japan)
Kwon H J (South Korea)	Zanders E D (UK)

Conference covers following topics:

- Strategies for Bioactive Small Molecule Discovery
- Designing Focused Chemical Libraries
- High-Content and High-Throughput Assay Design
- Screening in Forward and Reverse Genetics
- Chemoinformatics and Computational Chemical Biology
- Molecular Imaging and Switching Tools, Probing Living Systems at the Chemical Level
- Chemical Biology in Drug Discovery & Probing Cancer Pathways
- Chemical Biology and Genetics for Deciphering Cell Signalling Pathways: Protein, Nucleic acid and Carbohydrate Modifications
- Identification of Direct Targets of Small Molecules.
- Approaches to Discover Protein-Protein Interaction Inhibitors
- From Chemical Biology to Biotechnology
- Emerging Areas in Chemical biology
