Gene Targeting

International Conference
February 9-12 2011, Vienna, Austria

The Programme of **Gene Targeting** combines plenary lectures, poster sessions, and tours of the beautiful city of Vienna. Approximately 250 participants are expected, including more than 35 speakers and many presentations selected from abstracts.

Vienna is an old romantic imperial city, the world's capital of music and art...but Vienna is also the city of a young and trendy scene, the entertainment metropolis of central Europe, with an extensive program of events and sights - with something for everyone and fascinating all, Vienna is a city not to be missed.

Invited Speakers

- Tzvi Tzfira (USA)
- Sir Aaron Klug (UK)
- Daniel F. Voytas (USA)
- Dana Carroll (USA)
- Keith Young (USA)
- Avraham A. Levy (Israel)
- James S. Owen (UK)
- Matthew H. Porteus (USA)
- Yikang S. Rong (USA)

We are looking forward to abstracts addressing the following topics:

- Homologous Recombination and Repair
- Gene Targeting in Multicellular Eucaryotes
- Gene Targeting in Mammals
- Gene Targeting in Plants
- Gene Targeting in Human
- Zink Finger Nucleases
- Gene Targeting by Oligonucleotides
- Gene Targeting and Cancer
