

## Organizers:

Prof. Touraev A (VISCEA, Austria)

Prof. Heinz Rennenberg (Co-Chair, Germany)

**Location:** Bundesamtsgebäude Radetzkystraße,  
Hintere Zollamtsstraße 1, 1031 Vienna, Austria

**International Conference**  
June 25 - 26th 2015, Vienna, Austria

# Plant Growth, Nutrition & Environment Interaction

Efficient plant production and yield is highly dependent on understanding of the basic principles underlying the three-way interaction between the plant development, its nutrition and its interaction with environment.

The main goal of the International Conference “**Plant Growth, Nutrition and Environment Interaction**” is to review the state of the art and progress in the knowledge of plant growth, plant responses to nutrition and environment and to set research priorities for the next era of research. The Conference program covers a broad spectrum of topics from plant growth, development and nutrition to plant - environment interactions.

The program of **Plant Growth, Nutrition and Environment Interaction** combines plenary lectures and session talks, posters sessions, special sessions on career development, and tours of the beautiful city of Vienna. **Approximately 250-300 participants are expected, including more than 35 speakers and many presentations, selected from abstracts.**

Vienna is considered one of the most beautiful cities in the world, situated in the heart of Europe. Due to its geographic and geopolitical location, Vienna has become a popular conference place in recent years. Today, Vienna offers a range of sights from old historical palaces, classical concerts and outstanding opera performances to typical Viennese coffee houses and restaurants – all brought together in incomparable Viennese harmony. The International and Local Organizing Committees have compiled a well-balanced agenda with state-of-the-art professional highlights and social events to be remembered.

## Conference covers following topics:

Environmental Regulation of Plant Growth & Development  
Hormones in Plant Growth & Development  
Signaling in Plant Growth & Development  
Plant Nutrition: Physiology & Mechanism  
Plant Nutrition: Symbiotic Interactions  
Plant Nutrient: Acquisition, Homeostasis  
Plant Nutrition: Crop Quality & Productivity  
Management of Plant Nutrition & Fertilizers  
Management of Heavy Metals in Plants & Soil

## Invited speakers:

J. Schjørring (Denmark), P. McSteen (USA), D. Becker (Germany), D. Reinhardt (Switzerland), Ch. ROUX (France), F. Krajinski - Barth (Germany), A. Miller (UK), H. Kronzucker (Canada), F. Zhang (China), P. Bauer (Germany), B.-Ch. Chen (Taiwan), I. Ruberti (Italy), M. Uemura (Japan)

**For the first time, Vienna Conference Series offer Special Career & Job Sessions and Organized Meetings with Potential Employees and Employers!** Take the unique opportunity to find the GREAT JOB and Outstanding Researchers for Academy and Industry Labs! These sessions offer the unique chance for young researchers to present their portfolio (talks for 5-7 min.) and for academy and industry – talks on their areas of research and business (talks for 5-7 min.)

Vienna Conference Series also offer the great opportunity to get **FREE REGISTRATION**, if you attract 5 more colleagues to attend the meeting, independent on the institution and location.

**Finally, if you are not able to attend the Conference**, you can still submit your abstract and we are happy to publish it in the abstract book for just 50 €!
