# Molecular Ecology

**International Conference**  
**February 4 - 7 2012**  
**Vienna, Austria**

The Programme of **Molecular Ecology** combines plenary lectures, poster sessions, and tours of the beautiful city of Vienna. Approximately 250 participants are expected, including more than 35 speakers and many presentations selected from abstracts.

Vienna is considered one of the most beautiful cities in the world situated in the heart of Europe. Due to its geographic and geopolitical location, Vienna has become a popular conference place in recent years. Today, Vienna offers a range of sights from old historical palaces, classical concerts and outstanding opera performances to typical Viennese coffee houses and restaurants – all brought together in incomparable Viennese harmony. The International and Local Organizing Committees have compiled a well-balanced agenda with state-of-the-art professional highlights and social events to be remembered.

## Invited Speakers

- Alex Widmer (Switzerland)
- Neal Stewart, Jr. (USA)
- Diethard Tautz (Germany)
- Michael Hickerson (USA)
- Adam Eyre-Walker (UK)
- Outi Savolainen (Finland)
- Jean-Christophe Glaszmann (France)
- Thomas Städler (Switzerland)
- Martin Lascoux (Sweden)
- Yvonne Willi (Switzerland)
- Bernhard Haubold (Germany)
- Pierre Saumitou-Laprade (France)

## We are looking forward to abstracts addressing the following topics:

- Population and Landscape Genetics
- Molecular Tools in Ecology
- Genetic Analysis of Populations
- Genetic Variation and Diversity
- Molecular Evolution
- Phylogenetics and Phylogeography
- Molecular Approaches to Behavioral Ecology
- Conservation Genetics & Genomics
- Applied Molecular Ecology
